

Folding Instructions and hat template

③ With design still face down and using folding marks provided, fold 2 1/2" (6.5 cm) from right and left paper edge and then open flat again

① Fold 8 1/2 x 11" paper in half with design on the inside and then open up again

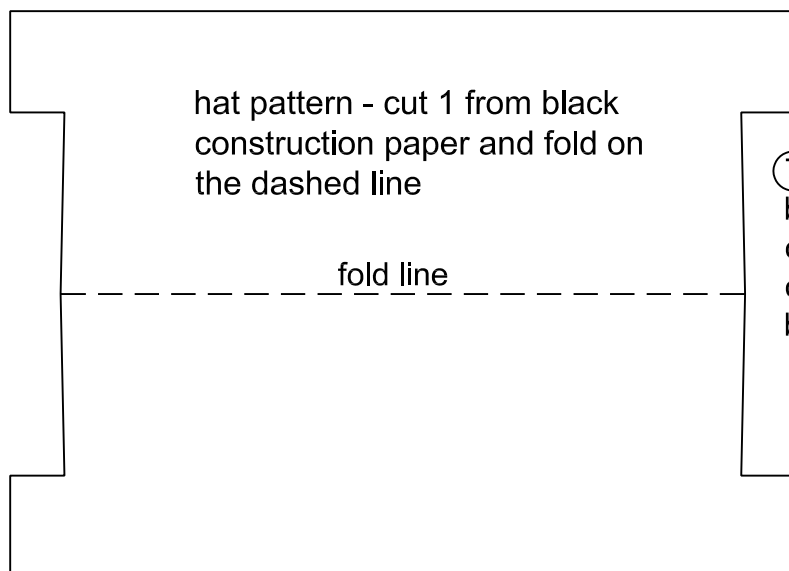

② Turn design face down and then fold paper 7/8" from either side of center fold line and then open flat again

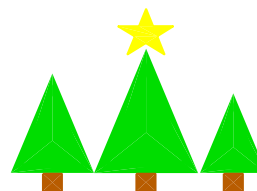

④ With design face down and open flat, re-fold the left column to the middle column. Now create a valley fold by matching the "a"s.

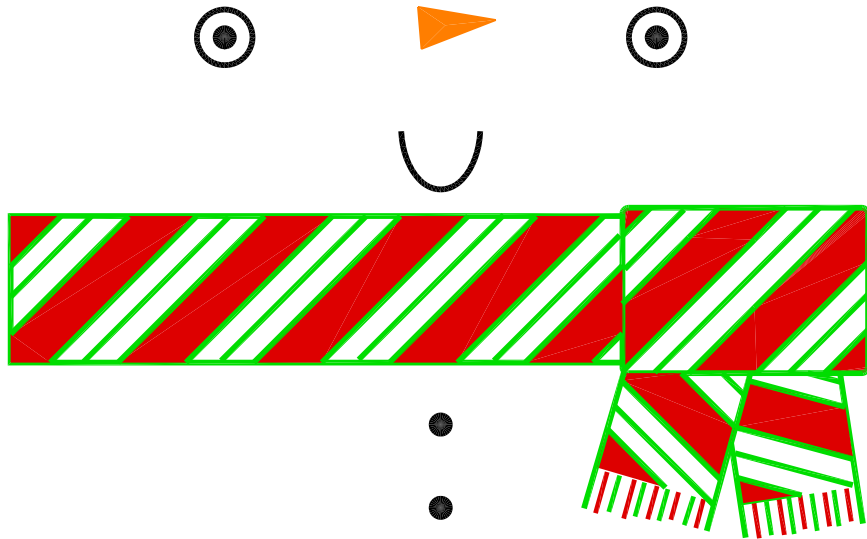

⑤ Re-open and repeat for all 4 valley folds

⑥ Once all the folds have been completed, place snowman face down and bring the left and right columns toward the middle while simultaneously bringing the top and bottom up toward the middle. You should now have a little folded gift bag.

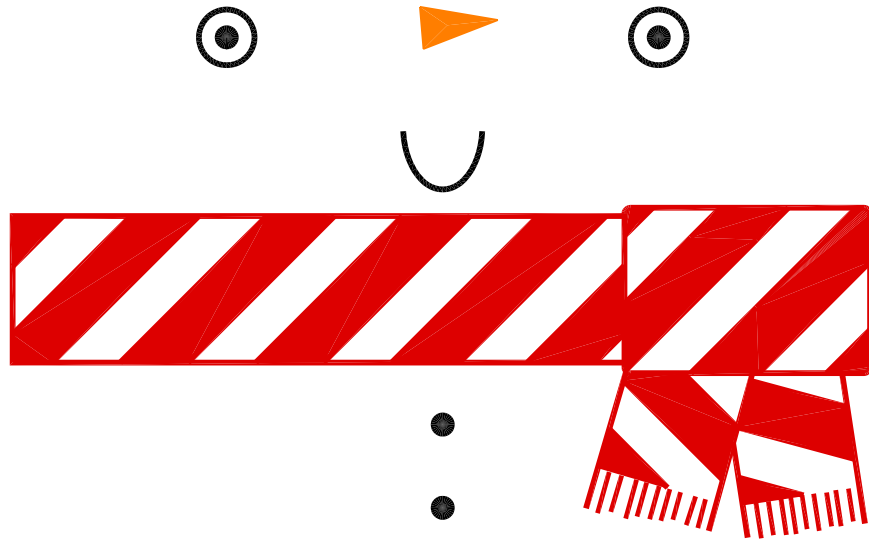

⑦ Trace hat pattern template onto black construction paper and cut out. Fold in half and then use glue or tape to attach to the top of the bag as a closure.

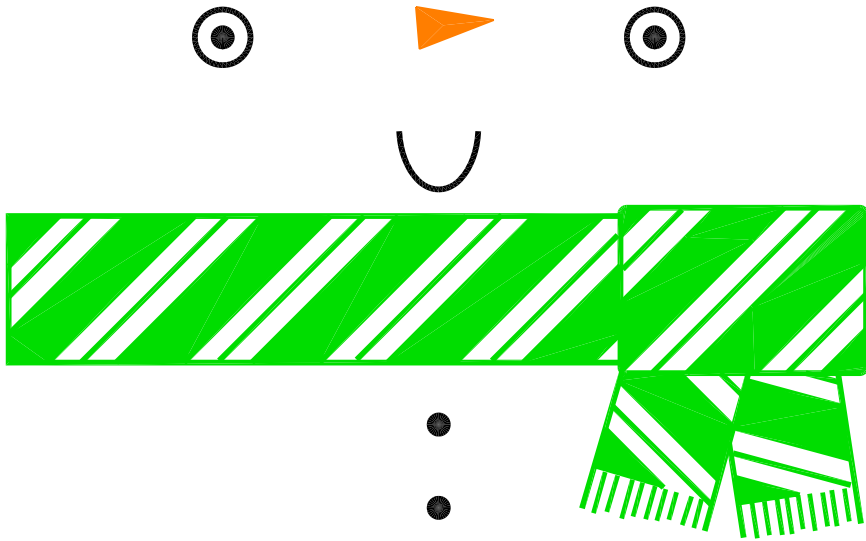

Christmas!

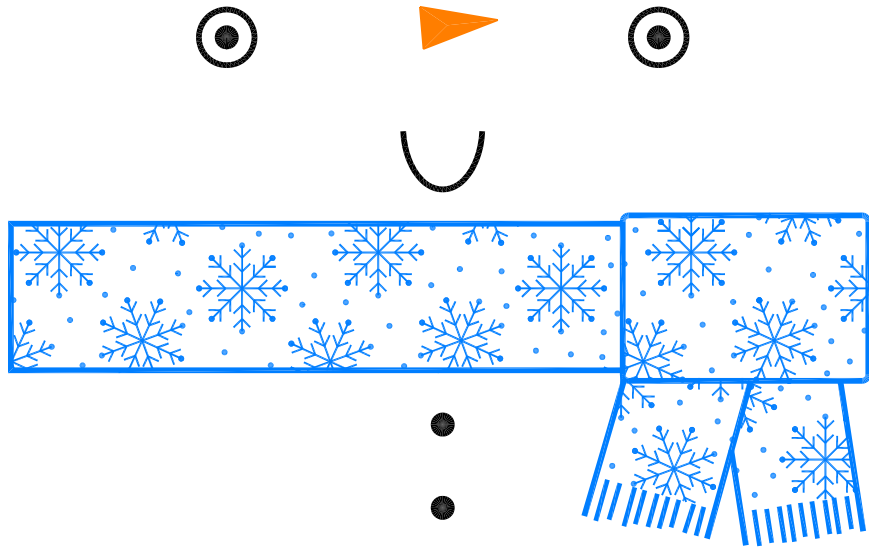

Christmas!

Christmas!

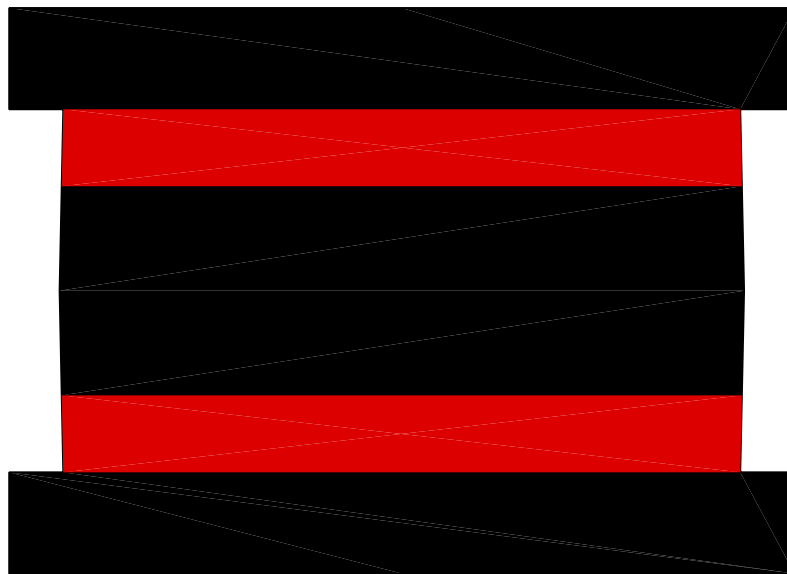

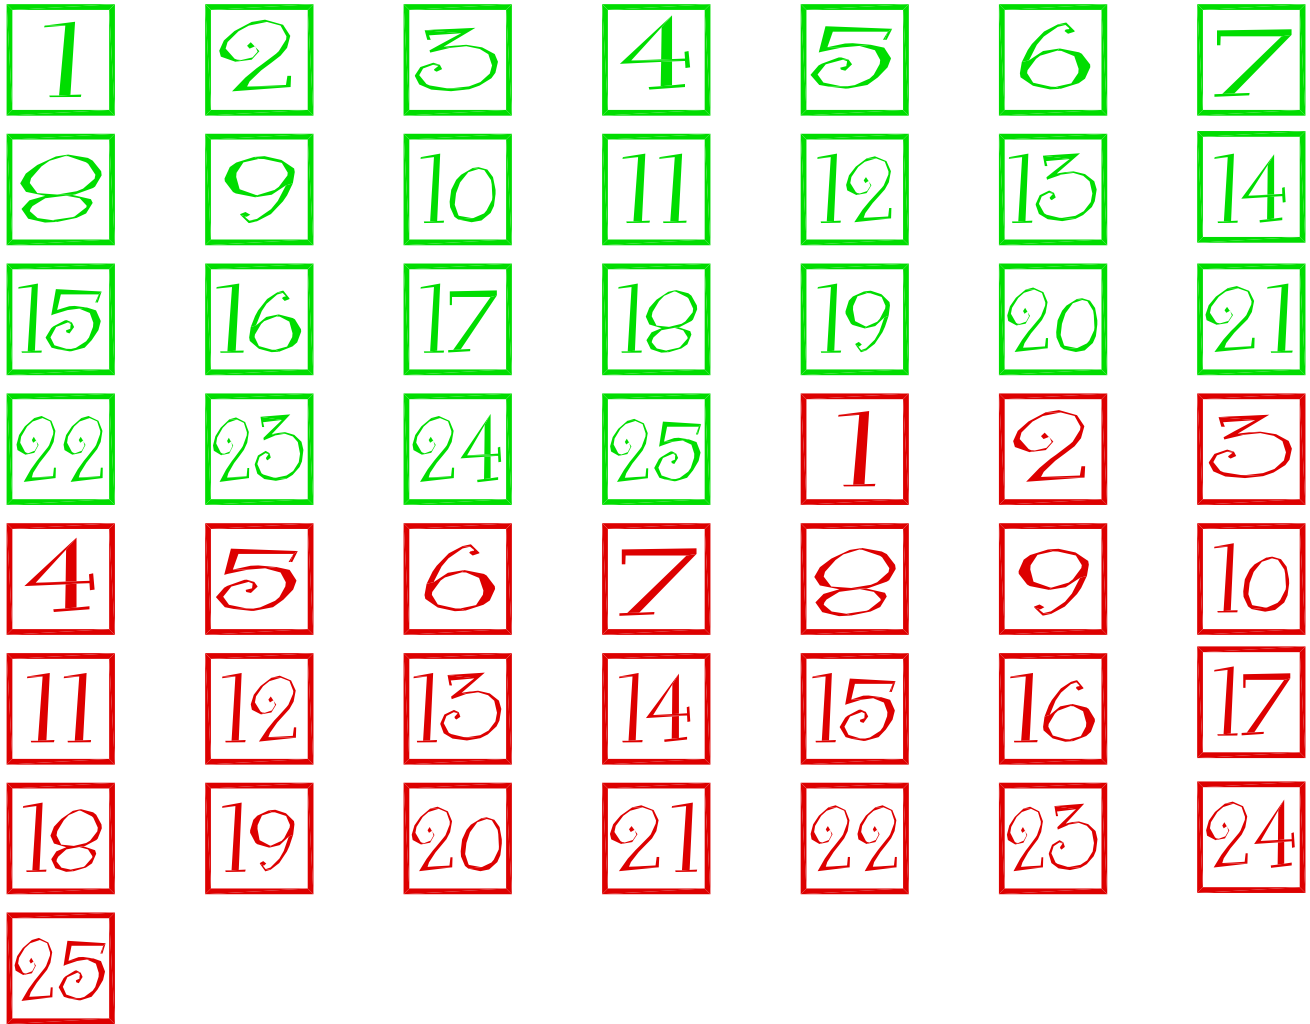

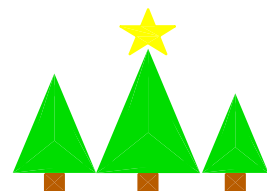

Merry
Christmas!

Optional countdown numbers and hat

Countdown numbers - cut out and glue to snowman

Optional hat - Cut out, fold in half and attach to bag with glue or tape
